What is ECVET?

ECVET is the European Credit transfer System for Vocational Education and Training which aims to achieve

- the transfer and recognition of individuals' learning outcomes,
- a compatibility between the different vocational education and training (VET) systems and qualifications in Europe and thereby
- supports mobility of European citizens, offering complementary documents.

And why does it want to go business?

In order to become effective, the transfer and recognition of individuals' learning outcomes and the compatibility of different systems and qualifications need to satisfy labour market demands.

Kaj je ECVET?

- podpira mobilnost evropskih državljanov in ponuja dopolnjujočo dokumentacijo.

In zakaj želi vključiti gospodarstvo?

Da bi sistem postal bolj učinkovit, da bi omogočal boljše ujemanje učnih izidov in skladnos z različnimi izobraževalnimi sistemi ter kvalifikacijami, ki jih potrebuje trg dela.
